

# ALUMINUM TOOL CASES

EGA Master's aluminum tool cases provide professionals with the ideal solution for transporting their work equipment.

Made of aluminum, their lightweight design facilitates transportation. Their dimensions allow for the accommodation of long equipment and tools such as levels, hacksaw...

**1.** Reinforced corners for increased durability.

**2.** The aluminum tool cases are composed of a removable interior foam, which can be customized to perfectly fit the tools.

**3.** The aluminum construction provides lightweight durability, making it ideal for transporting any type of tool due to its dimensions.

UNLIMITED WARRANTY
