

BRIDGE TYPE SPIRIT LEVEL

The EGA Master bridge type spirit level is a precision tool designed to verify and ensure horizontality and verticality in various industrial and construction applications.

1. Its design makes it ideal for jobs that require high accuracy in leveling.

2. Made of high-strength cast aluminum, providing durability and lightness.

3. With impact-resistant bubbles, located at 90° and 180° angles, facilitating measurements in different orientations.

COD.	L (mm)		(mm/m)		
65155	400	2	1	250	6
65156	500			320	
65157	600			400	

TECHNICAL SPECIFICATIONS					
Precision	1 mm/m				
Housing material	Aluminum				
Antishock vials	●
