

# NON-MAGNETIC TITANIUM HEXAGONAL KEYS

EGA Master's titanium tools, made from 6Al-4V titanium alloy, are hypoallergenic, acid-resistant, stainless, and 100% non-magnetic.

These tools are specifically designed for use in corrosive environments or where complete non-magnetic safety is required, such as in aviation, hospital equipment maintenance, aerospace applications, and military operations, among others.

**1.** Designed to be used with screws that have an internal hexagonal head, in critical and special applications that require non-magnetic and / or hypoallergenic materials.

**2.** For very sensitive devices used in laboratories, hospitals, transformer substations, radar stations, antennas...

**both in mm and  
inches**

## STANDARD MM

COD.		L (mm)	A (mm)	
71963	1,5	45	14	5
