

DROP HEADS THREADERS

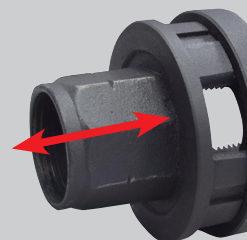

EGA Master drop heads threaders are specially manufactured for precise operation due to **the internal machining of the aluminum cover**, the which makes the four combs perfectly concentric and thus achieve good thread quality.

1. They allow to carry out threads easily and High quality of manually.

2. The neck is longer, favoring a better positioning, reducing vibrations, that improve the thread quality and facilitating the extraction of the head of the ratchet.

3. They include **different head sizes** to suit all needs.

4. Games available for **BSPT and NPT threads**.

TECHNICAL CHARACTERISTICS

MATERIAL	HEADS	BODY: Malleable cast iron
		LID: Aluminum
		COMBS: Special steel
	RATTLE	Aluminum alloy
HARDNESS	REDUCER	Aluminum
	COMBS	58-62 HRc
	RATTLE	45-50 HRc
FINISH	HEADS	Painted in semi-textured black epoxy powder
	RATTLE	Painted in semi-textured epoxy powder in Red RAL-2002

INTERCHANGEABLE HEAD DIE
