12M

**Ejemplo:**

Para obtener un par de salida de 1800Nm, se debe introducir un par de entrada: Par de entrada= par de salida x ratio neto factor de multiplicación 1800 x 1/4.5 = 400Nm /

**Example:**

To obtain an output torque of 1800Nm, user should apply an input torque of: Input torque= output torque x net ratio multiplication factor 1800 x 1/4.5 = 400Nm

**Exemple:**

Pour obtenir un moment de sortie de 1800 NM, il faut introduire un moment d'entrée: Force d'entrée= force de sortie x ratio net facteur multiplicateur 1800 x 1/4.5 = 400Nm

CARACTERÍSTICAS / FEATURES / CARACTÉRISTIQUES

Cr-V

**DISPOSITIVO ANTIRRETORNO:**

Los multiplicadores de par con una caja de engranajes de relación 22.5:1, disponen de un sistema antirretorno para eliminar la reacción originada en el apriete. Este dispositivo bloquea la tuerca, evitando que el multiplicador rebobine dado el alto ratio de multiplicación que soporta. Esto garantiza al usuario un uso cómodo, fácil y seguro. Todos los modelos disponen de una maleta para su protección y fácil transporte.

**NON-RETURN SYSTEM:**

Torque multipliers with a 22.5:1 relation gearbox, include a non-return system to avoid the reaction induced in the grip. This system locks up the nut, not allowing the torque multiplier to rewind, due to the high ratio level supported. These guarantees the user a safe, easy and comfortable use. All models have a special case in order to be well protected and easy to transport.

**DISPOSITIF ANTI RETOUR:**

Les multiplicateurs de couple ont une boîte d'engrenage de rapport 22.5:1, ils sont dotés d'un système anti-retour pour éliminer la réaction produite par le serrage. Ce dispositif bloque l'écrou, évitant que le multiplicateur rebobine à cause du haut ratio multiplicateur qu'il supporte. Ce qui confère à l'utilisateur une utilisation confortable, aisée et sûre. Tous les modèles sont présentés avec une mallette pour leur protection et leur transport.

**EGA Master ha desarrollado una nueva gama de útiles de roscado (machos y cojinetes) que ofrecen una solución idónea en las tareas de reparación y mantenimiento industrial.**

El diseño de estas herramientas se ha realizado con una geometría que asegura la calidad de las roscas obtenidas y mejora la extracción de la viruta. Este diseño cumple, además, con la normativa de referencia.

Los 4 filos de corte y los materiales empleados en la fabricación de los machos y cojinetes (acero rápido: HSS-M2 o HSS-Co) favorecen la duración de la herramienta y minimizan los tiempos de operación necesarios.

La gama de machos y cojinetes de roscar que ha diseñado **EGA Master** incluye todas las roscas de uso común en la industria:

- Rosca métrica, paso normal y fino
- Rosca BSW
- Roscas UNC y UNF
- Rosca GAS (BSP)
- Rosca NPT

**EGA Master has developed a new range of threaded tools (taps and dies) that offer a suitable solution at industrial maintenance task and repair actions.**

*The design of these tools has been made with a geometry that ensures the quality of the threads obtained and improves the extraction of the chip. This design also complies with the reference standards.*

*The 4 cutting edges and the materials used in the manufacture of the taps and dies (HSS-M2 or HSS-Co steel) improve the tool life and minimize the required operating times.*

*The range of taps and des that EGA Master has designed include all the threads commonly used in the industry:*

- Metric thread, coarse and fine pitch
- BSW thread
- UNC and UNF threads
- GAS (BSP) thread
- NPT thread

**EGA Master a développé une nouvelle gamme d'outils de filetage (Tarauds et filières) qui offrent la solution idéale pour les tâches de réparation et de maintenance industrielle.**

La conception de ces outils a été réalisée avec une géométrie qui garantit la qualité des filetages obtenus et facilite l'extraction de copeaux. Leur conception est de plus conforme à la norme de référence.

Les 4 arêtes de coupe et les matériaux utilisés dans la fabrication des tarauds et filières (acier rapide: HSS-M2 ou HSS-Co), améliorent la durée de vie de l'outil et réduisent le temps de travail nécessaire.

La gamme de tarauds et filières de filetage conçue par **EGA Master** regroupe tous les types de filetage d'usage régulier dans l'industrie:

- Filetage métrique, pas normal et fin
- Filetage BSW
- Filetage UNC et UNF
- Filetage GAS (BSP)
- Filetage NPT

Prix Iberferr du Meilleur Produit de l'Année  
2007

La rapidez y facilidad de uso con una mano de la llave para tubo Mastergrip, con capacidad para tubos de medidas comprendidas entre 1/4" y 1.1/2" para la de 10", entre 1/2" y 2" en el caso de la de 14" y entre 3/4" y 3" para la de 18", ofrecen una sujeción ideal para empalmar con gran eficacia tubos roscados. Su especial diseño robusto permite ser empleado en trabajos pesados.

*The fast and easy one-handed operated Mastergrip provides perfect grip to fit pipes effective and efficiently. The special Heavy Duty design makes it ideal for the most demanding jobs, providing 1/4"-1.1/4" pipe capacity for the 10" version, 1/2" to 2" in the 14" version and 3/4" to 3" in the 18" version, provides also a ratchet function that makes threaded pipe fitting really efficient. Heavy duty type for the most demanding jobs.*

La rapidité et la facilité d'utilisation avec une seule main de la clé serre-tubes Mastergrip, avec une capacité pour les tubes selon des mesures comprises entre 1/4" et 1.1/2" pour celle de 10", entre 1/2" et 2" dans le cas de celle de 14" et entre 3/4" et 3" pour celle de 18", permettent une prise idéale pour raccorder avec une grande efficacité des tubes filetés. Sa conception spécialement robuste permet de l'utiliser pour des travaux durs.

1

Su exclusivo diseño geométrico de lengua y postizo con un dentado especial permiten un agarre perfecto.

*Designed with special teeth for the best pipe gripping effect.*

La geometría exclusiva de la mâchoire et du bras de levier, pourvus d'une denture spéciale, permet une prise parfaite du tube, tout en donnant un effet cliquet.

2

Mango ergonómico de fundición de precisión de inmejorable atractivo.

*Ergonomic handle in accurate casting make it unbeatably attractive.*

Manche ergonomique en fonte de précision, ayant un parfait attrait.

3

Postizo con chaveta para soportar esfuerzos en ambos sentidos.

*Heel jaw with sunk key to withstand efforts in both directions.*

Bras de levier avec un axe pour supporter des forces des deux côtés.

4

Fácil amarre del tubo con una sola mano.

*Easy one hand gripping.*

Prise aisée du tube avec une seule main.

1

Acción rápida y suave gracias a su mecanizado de precisión.

*Precision machining provides the quickest and smoothest action.*

Action rapide et douce, grâce à son usinage très précis.

2

Extremadamente robusto, compacto y fácil de usar.

*Extremely robust, compact and easy to use.*

Très robuste, compact et aisé à utiliser.

3

Escala graduada marcada en láser para facilitar el posicionamiento.

*Laser marked graduated scale to facilitate working action.*

Echelle graduée, marquée au laser, pour faciliter le positionnement.

4

Cuchilla de repuesto incluida en el pomo.

*Extra cutting wheel at the knob.*

Molette de rechange, incluse dans le manche.

5

Especialmente diseñado para corte de tubos de acero inoxidable.

*Specially designed for cutting stainless steel pipes.*

Spécialement conçu pour couper les tubes en acier inoxydable.

6

Escariador extraíble puede trabajar montado en el cortatubos o de forma independiente.

*Extractable reamer can work assembled in the tubing cutter or independently.*

L'alésoir extractif peut travailler assemblé au coupe-tubes ou de manière indépendante.

7

Rodillos sin ranura fabricados en acero inoxidable para evitar contaminaciones.

*Stainless steel Rollers to avoid contamination, without groove.*

Rouleaux sans rainure fabriqués en acier inoxydable pour éviter la pollution.

8

Cuchilla HSS de larga duración para corte preciso y rápido.

*Long lasting HSS cutting Wheel for accurate and fast cutting.*

Lame HSS de longue durée pour coupure précise et rapide.

1

Ranuradora hidráulica hasta 12", para ranurados de gran calidad en tubos de acero y acero inoxidable.

*Hydraulic roll groover up to 12", for getting high quality grooves in steel and stainless steel pipes.*

Rainureuse hydraulique jusqu'à 12", pour un rainurage de grande qualité des tubes acier et inox.

2

Especialmente diseñada para trabajos a domicilio por su formato compacto, robusto y fácil de transportar.

*This machine is specially designed for job-site work due to its compact, strong and easy to transport format.*

Spécialement conçue pour des travaux sur chantier, grâce à sa forme compacte, robuste et facile à transporter.

3

Disponible en 3 formatos, ranuradora manual, ranuradora hidráulica o roscadora, ofrece la posibilidad de convertirla de una en otra con la simple adquisición del accesorio complementario, con lo que se dispondrá de ranuradora y roscadora en una sola máquina.

*Available in 3 formats, manual roll groover, hydraulic roll groover or threading machine, offers the possibility to transform one into the other just by acquiring the required accessory, having at your disposal threading and roll-grooving functions in only one machine*

Disponible en trois versions, rainureuse manuelle, rainureuse hydraulique ou filière, elle offre la possibilité de se convertir de l'une à l'autre, simplement par acquisition des accessoires complémentaires, ce qui vous permettra de posséder les deux en une.

4

El cambio de accesorios puede realizarse en pocos segundos, siendo así la operación de ranurado mucho más fácil.

*Any accessory change-out can be accomplished in few seconds, making grooving operation much easier.*

Les changements d'accessoires peuvent être réalisés en quelques secondes facilitant l'opération de rainurage.

## RANUMATIC "COMBI" UNIVERSAL

Ranuradora hidráulica hasta 12", para ranurados de gran calidad en tubos de acero y acero inoxidable.

*Hydraulic roll groover up to 12", for getting high quality grooves in steel and stainless steel pipes.*

Rainureuse hydraulique 12", pour un rainurage de grande qualité de tubes d'acier et d'inox.

## RANUMATIC UNIVERSAL MANUAL

Ranuradora manual hasta 6", para ranurados de gran calidad en tubos de acero y acero inoxidable.

*Manual roll groover up to 6", for getting high quality grooves in steel and stainless steel pipes.*

Rainureuse manuelle 6", pour un rainurage de grande qualité de tubes d'acier et d'inox.

## ROSCAMATIC 2" COMBI

Máquina roscadora de tubos hasta 2" y barras hasta 39 mm con motor universal, para un roscado eficiente y seguro.

*This threading machine can thread pipes up to 2" and bars up to 39 mm with universal motor in a safe and efficient way.*

Filière de tubes jusqu'à 2" et barres de 39 mm avec un moteur universel, fait un filetage efficace et sûr.

**■ PRESSMATIC 54 (108) PORTABLE**

La máquina de prensado radial Pressmatic 54 (108) Portable es compacta, manejable, muy ligera y portátil. El sistema de portatenazas giratoria permite acceder fácilmente a los lugares de más difícil acceso de forma cómoda e incluso a una sola mano. La rapidez de esta máquina se ve implementada por el sistema rápido de portamordazas, que permite un cambio eficiente y seguro de mordazas, así como por el sistema de retorno automático, que elimina tiempos muertos en las operaciones de prensado. Su batería de 18V, 3.0 Ah Li-ion le da una larga autonomía de uso en lugares sin red eléctrica.

Consulte en las siguientes páginas qué mordaza individual y universal con casquillos intercambiables debe seleccionar dependiendo del sistema de accesorios de prensar que vaya a emplear.

*Portable Pressmatic pressfitting machine 54 (108) is compact, handy, light and portable. The revolving press jaw carrying system enables jobs in difficult places, in a comfortable way even one handed. The press jaw carrying system as well as the automatic reverse system make it extremely quick and safe, saving time and making the job more efficient. The 18V, 3.0 Ah Li-ion battery provides long autonomy in places without electricity.*

*Check the following pages to make the right choice of individual & universal with dies pressing jaw depending on the pressfitting system you may use.*

La sertisseuse Pressmatic 54 (108) Portable est compacte, maniable, légère et portable. Le système de portemâchoires pivotant, permet d'accéder facilement dans des coins exigües et d'une seule main. La vitesse de cette machine est complétée par un système rapide de portemâchoires qui permet d'éviter les temps morts durant les opérations de sertissage. Sa batterie de 18V, 3.0 Ah Li-ion lui confère une grande autonomie dans les sites sans réseau électrique.

Veuillez consulter les pages suivantes afin de choisir la mâchoire individuelle ou universelle avec manchons interchangeables la plus adaptable au système d'accessoire à sertissage utilisé.

### ■ PRESSMATIC PORTABLE CCA

La máquina de prensado radial Pressmatic Portable CCA es compacta, manejable, ligera y portátil. El sistema de portatenazas giratoria permite acceder fácilmente a los lugares de mas difícil acceso de forma cómoda e incluso a una sola mano. La rapidez de esta maquina se ve implementada por el sistema rápido de portamordazas, que permite un cambio eficiente y seguro de mordazas, así como por el sistema de retorno automático, que elimina tiempos muertos en las operaciones de prensado. Su batería de 12V, 2.0 Ah le da una larga autonomía de uso en lugares sin red eléctrica, teniendo la posibilidad de ser empleado con conexión a la red para lugares con acceso de red (accesorio opcional).

Consulte en las siguientes páginas qué mordaza debe seleccionar dependiendo del sistema de accesorios de prensar que vaya a emplear.

*Pressmatic CCA pressfitting machine is compact, handy, light and portable. The revolving press jaw carrying system enables jobs in difficult places, in a comfortable way even one handed. The press jaw carrying system as well as the automatic reverse system make it extremely quick and safe, saving time and making the job more efficient. The 12V, 2.0 Ah battery provides long autonomy in places without electricity. An optional accessory also provides an electric plug connection where electricity is available.*

*Check the following pages to make the right choice of pressing jaws depending on the pres fitting system you may use.*

■ **PRESSMATIC 54 (108) PORTABLE - PRESSMATIC PORTABLE CCA - PRESSMATIC CCA**

■ **MORDAZAS PARA PRENSADO RADIAL / RADIAL PRESS FITTING TONGUES / MACHOÏRES POUR RACCORDS / RADIALPRESSZANGEN / Morsa per press fitting radial / MANDÍBULAS PARA PRENSAR RADIAIS / НАСАДКИ**

Las mordazas de prensar EGA Master están fabricadas en acero especial forjado, con un endurecimiento especial que le confiere la máxima seguridad de prensado. Los contornos están diseñados específicamente para cada sistema de accesorios, habiendo sido mecanizados en centros demecanizado de alta precisión, presentando así tolerancias inferiores a los realizados por microfundición, ofreciendo la máxima fiabilidad de prensado con cualquier sistema de accesorios de prensar. Se utilizan con las máquinas de prensar Pressmatic. También son empleables por máquinas de otros fabricantes.

*EGA Master pressing jaws are manufactured in special forging steel, being specially hardened. These features provide them with maximum working safety. Pressing contours are specifically designed for each pressing fitting system. They have been machined with high precision CNC machines, having much lower tolerances than microfusion, granting in this way maximum pressing reliability with any press fitting system. They are used with Pressmatic pressfitting machines. They can also be used in other manufacturers machines.*

Les machoïres à sertir Egamaster sont fabriquées à partir d'un acier forgé spécial, avec une dureté qui lui confère une sécurité de sertissage maximum. Les contours sont conçus spécifiquement pour chaque système d'accessoires, étant usinés dans des ateliers de grande précision, donnant de cette façon des tolérances inférieures à celles acquises par microfusion, garantissant le maximum de fiabilité du sertissage avec tous les systèmes d'accessoires à sertir. Les machoïres sont utilisées avec les machines à sertir Pressmatic. Elles peuvent être aussi utilisées avec les machines d'autres fabricants.

Consulte en las siguientes páginas qué mordaza debe seleccionar dependiendo del sistema de accesorios de prensar que vaya a emplear.

*Check the following pages to make the right choice of pressing jaws depending on the pres fitting system you may use.*

### ■ PRESSMATIC MINI PORTABLE

La máquina de prensado radial Pressmatic mini Portable es compacta, manejable, ligera y portátil. El sistema de portatenazas giratoria permite acceder fácilmente a los lugares de mas difícil acceso de forma cómoda e incluso a una sola mano. La rapidez de esta maquina se ve implementada por el sistema rápido de portamordazas, que permite un cambio eficiente y seguro de mordazas, así como por el sistema de retorno automático, que elimina tiempos muertos en las operaciones de prensado. Su batería de 14.4V, 1.65 Ah le da una larga autonomía de uso en lugares sin red eléctrica, teniendo la posibilidad de ser empleado con conexión a la red para lugares con acceso de red (accesorio opcional).

Consulte en las siguientes páginas qué mordaza debe seleccionar dependiendo del sistema de accesorios de prensar que vaya a emplear.

*Pressmatic mini portable pressfitting machine is compact, handy, light and portable. The revolving press jaw carrying system enables jobs in difficult places, in a comfortable way even one handed. The press jaw carrying system as well as the automatic reverse system make it extremely quick and safe, saving time and making the job more efficient. The 14.4V, 1.65 Ah battery provides long autonomy in places without electricity. An optional accessory also provides an electric plug connection where electricity is available.*

*Check the following pages to make the right choice of pressing jaws depending on the pres fitting system you may use.*

La machine à sertissage Radial Pressmatic mini Portable est compacte, maniable, légère et portable. Le système de porte-machoirs pivotant, permet d'accéder facilement dans des coins exigüs et d'une seule main. La vitesse de cette machine est complétée par un système rapide de porte-machoirs qui permet d'éviter les temps morts durant les opérations de sertissage. Sa batterie de 14.4 Volts, 1.65 Ah lui confère une grande autonomie dans les sites sans réseau électrique et peut être connectée au réseau (accessoire en option).

Consultez dans les pages suivantes, la machoire à sélectionner suivant le système d'accessoires à utiliser.

**MORDAZAS PARA PRENSADO RADIAL / RADIAL PRESS FITTING TONGUES / MACHOÏRES POUR RACCORDS / RADIALPRESSZANGEN / Morsa per Press Fitting Radial / MANDÍBULAS PARA PRENSAR RADIAÍS / НАСАДКИ**

Las mordazas de prensar EGA Master están fabricadas en acero especial forjado, con un endurecimiento especial que le confiere la máxima seguridad de prensado. Los contornos están diseñados específicamente para cada sistema de accesorios, habiendo sido mecanizados en centros de mecanizado de alta precisión, presentando así tolerancias inferiores a los realizados por microfusión, ofreciendo la máxima fiabilidad de prensado con cualquier sistema de accesorios de prensar. Se utilizan con las máquinas de prensar Pressmatic Mini. También son empleables por máquinas de otros fabricantes.

*EGA Master pressing jaws are manufactured in special forging steel, being specially hardened. These features provide them with maximum working safety. Pressing contours are specifically designed for each pressing fitting system. They have been machined with high precision CNC machines, having much lower tolerances than microfusion, granting in this way maximum pressing reliability with any press fitting system. They are used with Pressmatic Mini pressfitting machines. They can also be used in other manufacturers machines.*

Les machoïres à sertir Egamaster sont fabriquées à partir d'un acier forgé spécial, avec une dureté qui lui confère une sécurité de sertissage maximum. Les contours sont conçus spécifiquement pour chaque système d'accessoires, étant usinés dans des ateliers de grande précision, donnant de cette façon des tolérances inférieures à celles acquises par microfusion, garantissant le maximum de fiabilité du sertissage avec tous les systèmes d'accessoires à sertir. Les machoïres sont utilisées avec les machines à sertir Pressmatic Mini. Elles peuvent être aussi utilisées avec les machines d'autres fabricants.

Consulte en las siguientes páginas qué mordaza debe seleccionar dependiendo del sistema de accesorios de prensar que vaya a emplear.

**1**

Todos los desatascadores EGA Master tienen los elementos necesarios para un uso ergonómico y cómodo.

*All the EGA Master pipe cleaners have the necessary elements to ensure an ergonomic and comfortable use.*

Tous les déboucheurs EGA Master sont dotés d'éléments nécessaires à l'ergonomie et au confort d'utilisation.

**2**

El tubo protector permite un uso seguro sin ningún daño para el usuario profesional.

*Protection tube enables professional users to have a safe use without any damage.*

Le tube protecteur permet un usage sûr sans aucun risque de blessure pour l'utilisateur professionnel.

**3**

Se han diseñado pensando en todos los detalles, hasta los soportes plásticos para evitar dañar el suelo.

*They have been designed taking into account all the details, even the plastic stands to avoid damaging the floor.*

Ils ont été dessinés en pensant à tous les détails, jusqu'aux supports plastiques, pour éviter d'abîmer le sol.

**4**

La amplia gama de desatascadores EGA Master comprende punteras desde 16 mm hasta 30 mm para cualquier trabajo.

*The wide range of EGA Master pipe cleaners has different drill sizes from 16mm up to 30mm for any work.*

La grande gamme de déboucheurs EGA Master comprend des embouts de 16mm à 30mm pour tous les travaux.

Los distintos tipos de punteras se adaptan a cualquier tipo de trabajo de mantenimiento de redes.

*The different type of drills are valid for any pipe or drain cleaning operation.*

Les différents types d'embouts sont adaptés à tous types de travaux de maintenance de réseau.

Cada máquina incluye los equipos de seguridad necesarios.

*Each machine includes all necessary safety equipment.*

Chaque machine est vendue avec l'équipement de sécurité nécessaire.

Disponibles equipos a batería para trabajo cómodo e independiente del suministro eléctrico.

*Models with battery are available for comfortable use.*

Des équipements à batterie sont disponibles pour un travail aisé et non tributaire du réseau électrique.

**1** Acción rápida y suave gracias a su mecanizado de precisión.  
*Precision machining provides the quickest and smoothest action.*  
 Action rapide et douce, grâce à son usinage très précis.

**2** Extremadamente robusto, compacto y fácil de usar.  
*Extremely robust, compact and easy to use.*  
 Très robuste, compact et aisé à utiliser.

**3** Escala graduada marcada en láser para facilitar el posicionamiento.  
*Laser marked graduated scale to facilitate working action.*  
 Echelle graduée, marquée au laser, pour faciliter le positionnement.

**4** Cuchilla de repuesto incluida en el pomo.  
*Extra cutting wheel at the knob.*  
 Molette de rechange, incluse dans le manche.

**5** Puede cortar tubos de cobre, acero inoxidable y plástico con las cuchillas correspondientes.  
*Able to cut copper, inox and plastic pipes with the proper cutting wheels.*  
 Il peut couper du cuivre, de l'Inox et du plastique avec les molettes correspondantes.

**6** Escariador extraíble puede trabajar montado en el cortatubos o de forma independiente.  
*Extractable reamer can work assembled in the tubing cutter or independently.*  
 L'alésoir extractif peut travailler assemblé au coupe-tubes ou de manière indépendante.

1

Excelente resistencia a altas temperaturas llegando incluso hasta 1750 °C.

*Excellent resistance to high temperatures, reaching even 1750°C.*

Excellente résistance aux hautes températures, supportant jusqu'à 1750°C.

2

El regulador de gas permite modificar las dimensiones de la llama.

*The gas regulator allows the adjustment of the flame dimensions.*

Le régulateur de gaz permet la variation des flammes.

3

Auto-encendido piezoléctrico para evitar el uso de agentes externos.

*Piezoelectric self-ignition to avoid using external agents.*

Auto-allumage piézoélectrique pour éviter l'utilisation d'agents extérieurs.

4

Disponible para cartuchos estándar con rosca 7/16".

*Available for standard cartidges with 7/16" thread.*

Disponible pour des cartouches standards avec filetage de 7/16".

5

Agarre ergonómico para un uso cómodo y eficaz.

*Ergonomic handle for a comfortable and effective use.*

Prise ergonomique pour une utilisation commode et efficace.

Con abundantes modelos de sopletes con encendido piezoléctrico para adaptarse a los distintos tipos de uso.

*Several models of torches with piezoelectric ignition for all different professional uses.*

Avec d'abondants modèles de chalumeaux dotés d'un allumage piézoélectrique pour tout type d'usage.

Existen diversas soluciones para trabajos en los que no sea posible el acceso de bombonas.

*There are several solutions for jobs in which the use of gas cylinders is not possible.*

Il existe plusieurs solutions de travail pour les accès impossible avec des bombones.

### Medalla de Plata

Salón Internacional  
de la Invención

París 2004

### Silver Medal

International Inventors  
Competition

Paris 2004

### Medaille d'Argent

Salon International  
de l'Invention

Paris 2004

El especial diseño patentado de cuchilla y la geometría precisa del ángulo de ataque hacen del cortatubos Piraina de EGA Master el más versátil para cortar tubos de PE, PP, PB, VPE, PVDF, PEX, Multicapa e incluso de PVC rígido sin riesgo a que el tubo se fracture en pedazos.

*The special patented design of the blade and the accurate geometry of the attack angle, make the EGA Master Piraina® plastic pipe cutter the most versatile tool to cut PE, PP, PB, VPE, PVDF, PEX, Multilayer pipes, even rigid PVC pipes, without risk of pipe breaking.*

Le dessin original breveté de la lame et la géométrie précise de l'angle d'attaque, font du coupe tube Piraina de EGA Master, l'outil le plus versatile pour couper des tubes en PE, PP, PB, VPE, PVDF, PEX, Multicouches et aussi le PVC rigide, sans risque de le fendre ou de le casser.

El único cortatubos que puede cortar, además, tubos de Kevlar (SAE 100 R8).

*The only pipe cutter also able to cut Kevlar pipes (SAE 100 R8).*

L'unique coupe tubes capable de couper des tubes en Kevlar (SAE 100 R8) aussie.

Esencial para profesionales con las más altas exigencias.  
*Essential for demanding professionals.*  
Essentiel pour les professionnels les plus exigeants.

Por todo ello fue merecedor de la **Medalla de Plata** en el Salón Internacional de la Invención, Concours Lepine, París, mayo 2004.

*Due to these reasons, it won the Silver Medal in the prestigious International Inventors Competition in Paris, may 2004.*

Pour ces raisons, il fut récompensé de la **Médaille d'Argent**, au Salon International de l'Innovation, Concours Lépine, Paris, mai 2004.

Los cortavarillas EGA Master están perfectamente diseñados y fabricados para cortar varillas cilíndricas, varillas de encofrador, mallas de alambre, cables, pernos, etc.

*EGA Master bolt cutters are perfectly designed and manufactured for cutting rod, bolts, concrete from ties, cable and wires.*

Les coupe-boulons EGA Master sont parfaitement conçus et fabriqués pour la coupe des tiges, des boulons, des câbles et des fils.

### Regulación central / *Central regulation* / Réglage central

**1**  
Sistema multiplicador de par de corte.

*Cutting leverage multiplying system.*

Accroissement de la coupe par le système multiplicateur.

**2**  
El diseño especial reforzado de cabeza permite cortar varillas, pernos, etc. a muy poca distancia de la superficie desde la que sobresalen. El juego de cuchillas está fabricada en cromo-molibdeno, dándole una mayor resistencia y durabilidad gracias a la dureza 62 HRC.

*Its strong & specially designed head permits cutting bolts and rods at a very small distance from the surface where they stick out from. Cutting-blades are made in Chrome-Molibdenum, providing a bigger resistance and durability due to their 62 HRC hardness.*

Les mâchoires sont robustes et spécialement conçues pour couper au ras du mur. Les taillants sont en Chrome Molibdène d'une dureté de 62 HRC, ce qui confère une plus grande résistance et longévité aux mâchoires.

### Regulación lateral / *Lateral regulation* / Régulation latérale

**3**  
Gran capacidad de corte.

*Great cutting capacity.*

Capacité de coupe très importante.

**4**  
Mangos ergonómicos y confortables.

*Ergonomic and comfortable handles.*

Manches ergonomiques et confortables.

### Mangos forjados / *Forged handles* / Les bras forgés

MARTILLOS  
HAMMERS  
MARTEAUX  
HÄMMER  
MARTELLI  
MARTELOS  
МОЛОТКИ И КУВАЛДЫ

EGA Master ha renovado su gama de martillos con mango de madera y fibra de vidrio para satisfacer la demanda de los usuarios más profesionales. La fijación de la cabeza-mango está reforzada en ambos tipos de martillos, de modo que la cabeza nunca saldrá despedida. Los materiales empleados durante su fabricación garantizan un uso duradero. Por todo ello, lo martillos EGA Master son garantía de calidad en usos industriales.

EGA Master has renewed its range of wooden and fiberglass handles to satisfy the demand from the most professional user. The handle-head fixation is reinforced in both handle types, completely avoiding the disattachment of the head from the handle. Their manufacturing materials guarantee a durable use. For these reasons, EGA Master handles are a quality guarantee for industrial uses.

EGA Master a renouvelé sa gamme de marteaux avec un manche en bois et en fibre pour satisfaire la demande des usagers les plus professionnels. La fixation de la tête-manche est renforcée dans les deux types de marteau, d'un mode que la tête ne sera pas détachée. Les matières utilisées dans leur fabrication garantissent l'usage durable des mêmes. Pour toutes ces raisons, les marteaux EGA Master sont une garantie de qualité des utilisations industrielles.

**1** Acero especial de alta resistencia.  
*High resistance special steel.*  
Acier spécial de haute résistance.

**2** 50-58HRC en cara de golpeo (ISO 15601).  
*50-58HRC in impact area (ISO 15601).*  
50-58HRC sur les faces de frappe (ISO 15601).

**3** Acabado gris martelé.  
*Grey hammer tone finishing.*  
Finition gris martelé.

**4** Pasador de fijación y seguridad o mango cónico para unión perfecta mango-cabeza.  
*Safety pin or conical go-through handle for perfect fixation handle-head.*

Goupille de fixation sécurisée ou emmenchement conique pour une union parfaite manche-tête.

**5** Pieza de refuerzo para evitar la rotura del mango en su punto crítico.  
*Reinforced piece to avoid the breakage of the handle in its critical zone.*

Pièce de renfort afin d'éviter la rupture du manche au point critique.

**6** Mango de madera de alta calidad.  
*High quality wooden handle.*

Manche en bois de haute qualité.

**7** Cuña cónica para mejorar la distribución de presión.  
*Conical wedge to improve the pressure distribution.*  
Coin pour une meilleure répartition de la force de frappe.

**1** Acero especial de alta resistencia.  
*High resistance special steel.*  
Acier spécial de haute résistance.

**2** 50-58HRC en cara de golpeo (ISO 15601).  
*50-58HRC in hitting face (ISO 15601).*  
50-58HRC sur les faces de frappe (ISO 15601).

**3** Acabado gris martelé.  
*Grey hammer tone.*  
Finition gris martelé.

**4** Mango cónico pasante o pasador de fijación y seguridad para unión perfecta con la cabeza.  
*Conical go-through handle or safety pin for perfect fixation to the head.*

Emmenchement conique ou goupille de fixation sécurisée pour une meilleure fixation de la tête de la massette.

**5** Fibra de vidrio ultra-resistente.  
*Ultra-resistant fiberglass.*  
Fibre en verre ultra-résistante.

**6** Exterior del mango en PP y TPR: firmeza y adherencia.  
*Handle outer zone in PP and TPR: strength and adherence.*

Extérieur du manche en PP & TPR pour une plus grande dureté et une meilleure adhérence.

**EGA Master** ofrece una amplia gama de cortaazulejos manuales diseñados para cortes rectos, angulares o circulares de cerámicas hasta 120 cm de ancho.

Todos ellos están equipados con guías tubulares o macizas para lograr un corte más preciso y profesional y provistos de una bolsa de nylon para facilitar su transporte.

*EGA Master offers a wide range of tile cutters designed for straight, angular and circular ceramic cuts up to 120cm wide.*

*All of them equipped with tubular or solid guides for accurate and professional cuts, and provided with a nylon bag for their easy transport.*

**EGA Master** offre une grande gamme de coupe carreaux manuels conçus pour des coupes droites, angulaires ou circulaires pour des dimensions maximum de 120 cm.

Tous sont équipés de guides tubulaires ou pleins pour obtenir une coupe plus précise et professionnelle, et présentés dans une poche en nylon pour faciliter le transport.

1

Única guía maciza de acero para una mejor visión de rayado y corte.

*One solid steel guide for better view of the scrapping and cutting process.*

Un guide solide en acier pour une meilleure vue du marquage et une meilleure coupe.

2

Rodamientos ajustables para un corte más preciso.

*Adjustable bearings for accurate cutting.*

Roulements ajustables pour une meilleure coupe.

3

Tope lateral para realizar cortes repetitivos rectos y a 45°.

*Side stop for repetitive straight and 45° cutting.*

Câle latérale pour faire des coupes droites et à 45° répétitives.

4

Conjunto de escuadra giratoria con escala métrica y sistema de medición angular para cortes rectos de 0° a 45°.

*Swivel square set with metric scale and angular measuring system for 0° to 45° straight cutting.*

Système d'équerre rotative avec une graduation métrique pour des coupes de 0° à 45°.

5

Base de aluminio con soportes laterales para un mejor apoyo de cerámicas de gran tamaño.

*Aluminium base with movable large extension pads to stand larger ceramic sizes.*

Base en aluminium avec des supports latéraux pour un meilleur appui de céramiques de grandes dimensions.

6

Base con efecto amortiguante para lograr cortes con máxima precisión.

*Cushion effect base to get highest accuracy cuts.*

Base avec effet amortisseur pour obtenir des coupes de grande précision.

7

Mango ergonómico para un fácil agarre y un uso confortable.

*Ergonomic handle for easy gripping and comfortable use.*

Manche ergonomique pour une meilleure prise et un usage facile.

8

Diseñado para realizar cortes rectos y angulares de cerámicas hasta 120 cm.

*Designed for straight and angular ceramic cutting up to 120cm.*

Conçus pour réaliser des coupes droites ou angulaires de céramiques de 120 cm.

1

**BIMAT**\*

Carcasa Bimaterial ABS + Elastómero resistente al choque y a la abrasión.

*ABS + Elastomer antishock and antiabrasion bimaterial case.*

Boîtier bimatière ABS + élastomère résistant aux chocs et à l'abrasion.

2

Sistema de bloqueo automático con rodillos. Desbloqueo mediante pulsación.

*Automatic locking system with rollers. Unlock by pressing.*

Système de verrouillage automatique à galets. Déverrouiller en appuyant.

**2 STOPS**\*

Doble acción de bloqueo y freno para la máxima comodidad de utilización y seguridad.

*Double action safety blocking and braking for maximum comfort.*

Système double-action de freinage et de blocage pour un meilleur confort d'utilisation.

3

Muelle de retorno extrafuerte con sistema de cambio de cinta RapidChange.

*ExtraResistant returning spring equipped with Rapid Change quick blade-replacing system.*

Ressort de rembobinage ultra-renforcé avec système de remplacement de ruban Ultra-rapide.

4

**NYLON**\*

Recubrimiento de nylon MASTER 15 veces más resistente a la abrasión y a la oxidación. Antiadherente y antireflectante.

*MASTER nylon coating, 15 times more resistant against abrasion and rust. Dirt anti-adherence and non-reflecting.*

Revêtement de nylon MASTER 15 fois plus résistant à l'abrasion et à l'oxydation. Anti-adhérente et anti-réfléchissante.

**URAR**\*

Recubrimiento 10 veces más resistente a la abrasión y a la oxidación. Antiadherente y antireflectante.

*10 times more resistant against abrasion and rust. Dirt anti-adherence and non-reflecting.*

Revêtement 10 fois plus résistant à l'abrasion et à l'oxydation. Anti-adhérente et anti-réfléchissante.

**INOX**\*

Cinta y todos los componentes metálicos de acero inoxidable para trabajos ambientales de máxima humedad.

*Tape and all metallic components made in Stainless Steel to work under the most humid environmental conditions.*

Ruban et tous composants métalliques en acier inoxydable pour travaux en environnements humides.

Graduación continua y de fácil visión para entornos lejanos o poco iluminados.

*Continuous and easy-reading scale for long distances or low light environments.*

Graduation continue et à visible à longue distance et avec peu de luminosité.

Cinta mate.  
*Matt tape.*  
Ruban mat.

Cintas de acero de 0,13 mm de espesor de la mayor calidad y resistencia a la flexión, recubiertas con las más avanzadas técnicas antireflexión, antiabrasión, antiadherencia y antioxidación.

*Bending resistant and highest quality 0,13 mm thickness steel blades, equipped with the most advanced techniques in antireflection, antiabrasion, antiadherence and antirust coating.*

Ruban en acero de 0,13 mm d'épaisseur première qualité de grande résistance, recouvert avec les meilleures techniques anti-réfléchissantes, anti-abrasion, anti-adhérence et anti-oxydation.

5

**MAGNET C**\*

Potente uña magnética.  
*Powerful Magnetic Hook.*  
Onglet magnétique puissant.

Uñas reforzadas antichoque en todos los modelos para los trabajos más exigentes.

*Antishock reinforced hooks for the toughest jobs.*

Crochets renforcés anti-chocs sur tous les modèles, pour les utilisations les plus exigeantes.

I

Hoja de acero templada: acero carbono o acero inoxidable.  
*Tempered steel spring blade: Carbon steel or Stainless steel.*  
Feuille d'acier tendre : acier-carbone ou acier inoxydable.

II

Pintura antiabrasiva: amarillo / plateado.  
*Anticorrosive painting: yellow / silver.*  
Peinture anti-corrosive : jaune / argent.

III

Estampación de graduación continua.  
*Continuous printed graduation.*  
Graduation continue pressée.

IV

Recubrimiento antiabrasivo transparente.  
*Anticorrosive transparent coating.*  
Revêtement anti-corrosion transparent.

EGALUX

# EGALUX

La gama de iluminación **EGALux** proporciona un nivel de luminosidad adecuado al espacio a iluminar para favorecer la tarea a desempeñar y la calidad de trabajo, evitando la fatiga visual en los ojos y las alteraciones en el sistema nervioso, aumentando las condiciones de seguridad y salud laboral.

La iluminación proporcionada por la gama **EGALux** posee las siguientes características:

- Suficiente y necesaria para cada trabajo.
- Constante y uniformemente distribuida.

Además, para un correcto uso los focos luminosos deben estar colocados de manera que no deslumbren ni produzcan fatiga en la vista.

Por ello, **EGA Master** incorpora en todos sus modelos **EGALux** la tecnología de diodos emisores de luz de alto rendimiento, comúnmente denominados leds, debido a su menor consumo y larga durabilidad. Son dispositivos muy ventajosos y la opción más profesional en iluminación.

La gama mas completa de linternas **EGALux** se compone de:

*EGALux lighting range provides the perfect luminosity at the job site. It is designed to avoid the visual fatigue and alterations in the nervous system, improving health and safety conditions.*

*The illumination provided by EGALux range includes the following specifications:*

- *Enough and necessary light for each job.*
- *Constant and uniform.*

*The flashlights should be placed correctly to avoid glare or visual fatigue.*

*EGA Master incorporates the high performance light-emitting diode technology in all EGALux models, commonly called leds, due to their low consumption and high operating life.*

*The most complete range of lamps EGALux is composed by:*

La gamme d'éclairage **EGALux** offre un niveau de luminosité idéal pour des espaces à illuminer afin de favoriser la qualité de travail à réaliser, tout en évitant la fatigue visuelle et les altérations du système nerveux, ainsi en augmentant les conditions de sécurité et la santé au travail.

L'éclairage produit par la gamme **EGALux** a les caractéristiques suivantes:

- Suffisant et nécessaire pour tout type de travail.
- Diffusion constante et uniforme.

Outre, pour obtenir un usage correct, les faisceaux lumineux doivent être positionnés de façon à ne pas éblouir ni fatiguer la vision.

Pour cette raison, **EGA Master** intègre dans tous les modèles **EGALux**, la technologie de diodes émettrices de lumière de haut rendement, communément nommées LEDs, dû à une basse consommation et une longue viabilité. Ces derniers sont des dispositifs avantageux étant l'option la plus professionnelle dans le secteur d'éclairage.

La gamme la plus complète des lampes **EGALux** se compose de:

Los polipastos manuales EGA Master están diseñados, fabricados y estrictamente controlados de acuerdo a la norma FEM, garantizan la máxima seguridad con diversidad de posibilidades de elevación.

Su exclusivo guiado permanente, evita que la cadena se pueda atascar o romperse. Esto, junto con su sistema de freno patentado de acción inmediata y con el Factor de Seguridad de 5-6 recomendado para la cadena, no sólo refuerza un trabajo en condiciones de seguridad, sino que además amplía los ciclos de uso maximizando la vida útil de los mismos.

Su optimizado diseño requiere además un mantenimiento mínimo, simplemente hay que lubricarlos periódicamente.

*EGA Master hand chain hoists are designed, manufactured and controlled according to the FEM standard, ensuring the maximum safety with a diversity of lifting possibilities.*

*Its exclusive permanent load chain guide avoids the chain jams or breaks. This, together with its patented immediate action safety brake system and with the Safety Factor 5-6 recommended for the chain, not only reinforces the work in safe conditions, but also, extends the use cycles maximizing their useful life.*

*Its optimized design only requires minimal maintenance: a simply lubrication periodically.*

Les palans manuels EGA Master sont conçus, fabriqués et strictement contrôlés en accord avec la norme FEM, ils garantissent une sécurité optimales avec une multitudes de possibilités de levage.

Son exclusif guide permanent, évite que la chaîne puisse s'entrecroiser ou se rompre. Ceci, en combinaison avec son système de freinage breveté d'action immédiate et grâce au facteur Sécurité de 5-6 recommandé par la chaîne, non seulement cela renforce un travail dans des conditions de sécurité, mais aussi cela augmente le nombre de cycle maximisant son espérance de vie.

Sa conception optiminale requiert néanmoins un entretien minimaliste, simplement une lubrification périodique est nécessaire.

La medición de precisión es una necesidad fundamental en la vida moderna. El confort, la calidad, la eficiencia y, sobre todo, la seguridad vienen determinadas por la precisión de las medidas que se realizan. Consciente de ello, EGA Master ha desarrollado una amplísima gama de instrumentos electrónicos de medición y testeo de gran precisión e innovación, que permitirán a los usuarios profesionales realizar su trabajo con las máximas garantías, la seguridad del trabajo bien hecho y la máxima eficacia.

Instrumentos que permitirán realizar todo tipo de mediciones eléctricas, electrónicas, de aislamiento, iluminación, temperatura, sonido y velocidad, entre otros, para los sectores industriales y profesionales más exigentes: Automoción, Aeronáutica, Iluminación, Eléctrico, Electrónico, Mantenimiento Industrial, Seguridad y Salud, Construcción, Ferroviario, Naval, etc.

*Accurate measuring is a fundamental requirement in modern life. Comfort, quality, efficiency, and above all, safety, are determined by the accuracy of the measurements done. Conscious about it, EGA Master has developed a wide range of high precision and innovative electronic measuring and testing instruments, that will help professional end-users to do their job with complete safety, certain of a well done job.*

*The range includes devices for any type of measurements, such as electric, electronic, insulation, illumination, temperature, sound or speed... for the most demanding industrial sectors and professionals: Automotive, Aeronautics, Illumination, Electric, Electronic, Industrial Maintenance, Health & Safety, Construction, Railway, Shipbuilding and a long etc.*

La medida de precisión es una necesidad fundamental en la vida moderna. El confort, la calidad, la eficiencia y sobre todo, la seguridad, son determinados por la precisión de las medidas realizadas. Étant conscient de ce fait, EGA Master a développé une vaste gamme d'instruments électroniques de mesure et de test avec une grande précision et innovation, ce qui permettra aux usagers professionnels de réaliser leur travail avec les garanties maximales, la sécurité d'un travail bien fait et une grande efficacité.

Tous ces instruments permettront de réaliser tout type de méditations comme par exemple : électriques, électroniques, d'isolation, d'illumination, de température, de son et vitesse, pour les secteurs industriels et professionnels les plus exigeants : Automation, Aéronautique, Éclairage, Électrique, Électronique, Entretien Industriel, Sécurité et Santé, Construction, Ferroviaire, Naval, parmi beaucoup d'autres.

El corte de bridas mediante el uso de tijeras puede dañar los cables. Este es de hecho el principal causante de averías y retrasos, además de un potencial riesgo para la seguridad.

El cortabridas de EGA Master permite cortar bridas de manera rápida y sencilla, sin dañar los cables que sujetan:

*The use of scissors to cut ties can result in wire damage. This is, in fact, the main cause of faults and delays in industrial applications. It is also a potential safety hazard.*

*The EGA Master plastic tie cutter cuts ties in an easy and quick way, and without damaging the wires.*

La pince coupe colliers plastiques via l'usage de ciseaux peut endommager les câbles. En effet, c'est la principale cause de pannes et retards, outre un risque potentiel pour la sécurité.

La pince coupe colliers plastiques d'EGA Master permet de couper des brides d'une manière rapide et facile, sans endommager les câbles qu'elles retiennent.

1

El diseño especial de sus puntas permite cortar bridas sin dañar los cables que sujetan.

*The special design of the blades allows cutting the very tightly held cable-ties without damaging the cables.*

La forme spécifique des extrémités des becs de la pince, permet de couper les colliers sans endommager les câbles.

2

Indispensable en automoción, aviación, línea blanca, electricidad y redes de datos, donde el uso de tijeras puede provocar el deterioro involuntario de los cables, lo que hace incurrir en serios problemas de seguridad y costos de resolución.

*Compulsory in the automotive, aviation, white line, electricity and network industries where the use of scissors or knives can involuntarily damage the cables and incur serious safety problems and resolution costs.*

Indispensable dans l'automobile, l'aviation, les lignes électriques, l'électricité et les réseaux, où l'utilisation de ciseaux peut blesser involontairement les câbles; ce qui peut provoquer un problème de sécurité et de surcoût de montage.

3

Además nos permite cortar cable de hasta 10 mm de diámetro gracias a su longitud de corte.

*It allows cutting cables of up to 10 mm in diameter.*

En plus il nous permet de couper un câble de jusqu'à 10 mm de diamètre grâce à sa longueur de coupe.

Con las tijeras se dañan los cables.

Con el cortabridas de EGA Master se cortan las bridas con seguridad.

*Scissors and knives damage the cables.*

*With Ega Master's new plastic tie cutter you can cut the cable-ties safely.*

Avec les ciseaux on endommage les câbles.

Avec le coupe brides d'EGA Master les brides sont coupées avec sécurité.

## 1000V IEC 60900

**EGA Master ofrece una extensísima colección de herramientas de seguridad aisladas 1000V: alicates, destornilladores, llaves ajustables, cortacables de carraca, pinzas, cuchillos, tenazas, llaves fijas y de estrella, llaves de vaso (con sus correspondientes accesorios y juegos), arcos de sierra, etc.**

*EGA Master offers a huge range of safety 1000V insulated handtools: pliers, screwdrivers, adjustable wrenches, tweezers, knives, sockets, spanners, hacksaws...*

**EGA Master offre une vaste gamme d'outils isolés 1000V: pinces, tournevis, clés réglables, brucelles, couteaux, douilles, clés, scies à métaux...**

Test de impacto  
Impact test  
Test d'impact

Test de adherencia de mangos  
Testing of adhesiveness  
Test d'adherence klebtest

Test de no propagación de llama  
Heat resistance test  
Test de combustibilité

Las herramientas aisladas de EGA Master cumplen con la normativa IEC 60900, siendo sometidas todas ellas al test dieléctrico a 10.000V (es decir, a una intensidad 10 veces mayor de la certificada). Las herramientas son objeto también de los tests de adherencia, penetración dieléctrica, impacto y propagación de llama de acuerdo a la rigurosa norma europea.

*EGA Master insulated tools comply with IEC 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.*

Les outils isolés d'EGA Master sont conformes au norme IEC 60900. Chaque pièce est testée à 10.000V (nous certifions 10 fois la tension). Elles sont rigoureusement testées suivant les normes établies: essai d'adhérence, essai au choc, essai de propagation de flamme et essai de pénétration diélectrique.

1

El doble aislamiento de PVC duro-blando ofrece máxima adherencia y seguridad ante posibles imprevistos.

*Double hard-soft PVC insulation provides maximum adherence and safety.*

La double isolation de PVC Dur-souple offre une adhérence optimale et une sécurité contre les imprévus.

2

Guardamanos y extremidades anti-choque.

*Anti-shock guards and ends.*  
Poignées et extrémités anti-chocs.

3

Marcado láser indeleble.

*Un-erasable laser marking.*  
Marquage Laser indélébile.

**PRECAUCIONES  
CAUTION  
PRÉCAUTIONS**

- No emplear nunca la herramienta en aplicaciones bajo tensión si la protección presenta poros, fisuras, elementos incrustados o se ve la capa inferior de color amarillo.  
*Don't ever use tools under voltage if they present pores, fissures, encrusted elements or if the yellow insulation layer is visible.*  
Ne jamais utiliser l'outillage en tension si la protection semble poreuse, présente des fissures, que des corps étrangers sont incrustés ou que la couche inférieure est jaune.
- Se recomienda emplear suelos aislantes y calzado de seguridad en trabajos bajo tensión.  
*Insulating floors and safety shoes are recommended to work under voltage.*  
Pour des travaux sous tension, nous recommandons de travailler avec des tapis isolants et des chaussures de sécurité.
- Evite el contacto con agua mientras realice trabajos bajo tensión.  
*Avoid contact with water while working under voltage.*  
Éviter tout contact avec l'eau lors de réalisation des travaux de sous tension.
- No tocar directamente ninguna pieza susceptible de estar bajo tensión. Emplear un comprobador de tensión o tester.  
*Do not ever touch directly any item that may be under voltage. Use a voltage tester to check first.*  
Ne jamais toucher directement, une pièce susceptible d'être sous tension.

### ■ DESTORNILLADORES / SCREWDRIVERS / TOURNEVIS / HANDSCHRAUBER / CACCIAVITI / CHAVES DE FENDA / ОТВЕРТКИ

El aislamiento de la varilla de los destornilladores 1.000V de EGA Master, ha sido especialmente diseñado para acceder a espacios más reducidos gracias a su aislamiento conico, que le provee de un menor espesor en la punta.

The insulation of EGA Master screwdrivers' bars has been specially designed to allow access to the smallest spaces, as the insulation is made in taper shape (conical), which provides less diameter close to the tip.

L'isolement de la lame des tournevis 1000V d'EGA Master, il a été spécialement conçu pour accéder à des espaces plus réduits grâce à son isolement conique, qui lui octroie une plus petite épaisseur sur la pointe.
